

MUHAMMAD IMTIAZ

FLUTTER APP DEVELOPER

+92 341 0333820 • Sadiq Abad, Pakistan • developerhouseapl@gmail.com • github.com/MuhammadImtiaz48

PROFESSIONAL SUMMARY

Flutter Developer with 1+ year of hands-on experience building and shipping cross-platform mobile applications end to end — from UI implementation to backend integration, real-time features, and payment systems. Proven track record delivering production-ready apps spanning social/chat platforms, healthcare booking systems, real estate, and fitness/wellness domains. Skilled in Dart, Firebase, REST APIs, state management (Provider & GetX), and payment gateway integrations (Stripe, Mollie). Strong problem-solver with a focus on clean, maintainable code and pixel-perfect UI.

TECHNICAL SKILLS

Languages & Frameworks

- Dart & Flutter (cross-platform)
- REST API Integration
- Provider & GetX State Mgmt

Backend & Cloud

- Firebase (Auth, Firestore, Functions)
- Push Notifications (FCM)
- Cloudinary / Media Handling

Integrations & Tools

- Payments: Stripe, Mollie
- Real-time Chat & Video (ZegoCloud)
- Git/GitHub, Clean Architecture

EXPERIENCE

Flutter Developer — VirtualSoft

March 2024 – August 2025

- Built and deployed multiple cross-platform mobile applications using Flutter, covering the full development lifecycle from UI to backend integration.
- Delivered high-quality, user-friendly solutions with a focus on frontend and backend integration, clean code, and structured problem-solving.
- Ensured pixel-perfect UI and optimized app performance across Android and iOS.

PROJECTS

NDY App | Real-Time Social Chat Platform

- Developed a full-featured social chat app in Flutter with real-time one-on-one messaging, typing indicators, and message status tracking (sent, delivered, seen).
- Implemented complete authentication flow (login, registration, email verification, forgot password) along with rich user profiles, skills, and social links.
- Built support for image, document, and voice messages, push notifications, in-app search, and a guided onboarding experience.
- Tech stack: Flutter, Dart, Provider (state management), GoRouter, Google Fonts.

TURAME | Healthcare & Caregiver Booking App

- Built a multi-role healthcare platform in Flutter connecting clients, caregivers, and providers with dedicated dashboards for each role.
- Integrated Firebase (Authentication, Firestore, Cloud Functions, Cloud Messaging) for real-time data sync, secure auth, and notifications.
- Implemented Stripe payment processing via Firebase Cloud Functions for secure bookings, invoicing, and transaction/earnings history.
- Added real-time video/audio consultations using ZegoCloud and wearable health-device data integration for patient monitoring.
- Tech stack: Flutter, GetX, Firebase Suite, Stripe, ZegoCloud, Health SDK.

Inhale Pilates | Fitness Studio Booking & Payments App

- Developed a Flutter-based booking app for a pilates/fitness studio, enabling clients to schedule and pay for classes.

- Integrated the Mollie payment gateway to handle secure, seamless online payments for class bookings and memberships.

MeChat App | *Messaging App*

- Built a cross-platform messaging application in Flutter with a focus on clean UI and smooth user experience.

Real_Estate App | *Property Listing App*

- Developed a property listing and browsing app in Flutter, delivering an intuitive interface for exploring real estate listings.

EDUCATION

Bachelor's in Computer Science

KFUEIT University, Rahim Yar Khan (RYK) • 2022 – 2026
