SKILLS

Flutter & Dart

Firebase

REST APIs

Responsive UI Design

State Management

- GetX
- Provider

Local Storage

- Sqflite
- SharedPreferences

MVC Architecture

App Localization

Dynamic Theming

LANGUAGES

Urdu – Native

English – Basic

PROGRAMMING

Dart (OOP)

Java (OOP)

C++

EXPERIENCE

Flutter Developer Trainee

Virtual Soft Software House • 01 March 2025 – 01 March 2026

- Trained in Flutter, GetX, Provider, REST APIs, Firebase, Local Storage, MVC, and Clean Architecture.
- Developed responsive mobile apps with Firebase Authentication, Firestore, and real-time features.
- Built practical Flutter projects with localization, clean UI, and scalable app architecture.

Flutter Developer Intern

DotSinc Software House • 01 April 2026 – 01 June 2026

- Worked on real client Flutter projects, handling feature development and bug fixing.
- Used Firebase services including Firestore, Authentication, and Cloud Storage in production apps.
- Collaborated with senior developers and improved app performance using GetX state management.

PROJECTS

UnitZen – Offline Unit Converter App (Flutter)

- Developed and published a fully offline unit converter app supporting 6 categories including length, weight, temperature, volume, time, and speed with instant live conversion.
- Implemented local data persistence for favorites and conversion history (up to 100 entries) using secure on-device storage, with zero data collection or third-party sharing.
- Built a clean Material 3 UI with dark mode support, adjustable decimal precision, and smooth animations, then published the app live on the Google Play Store.

E-Chat – Messaging App (Flutter)

- Developed a real-time messaging app using Flutter, Firebase Firestore, GetX, and MVC architecture with smooth user-to-user chat functionality.
- Implemented multi-language localization, Firebase Authentication, responsive UI, and smooth animations for a polished user experience.
- Built as a solo project with clean code structure, optimized state management, and offline support using Sqflite local storage.
